

WE HAVE AUSTRALIA AND NEW ZEALAND COVERED WHEN IT COMES TO BROKEN JUNCTIONS.

Nuflow are the specialists in Lateral Connection Liners (LCL) for any type of junction. The Nuflow pipe relining and repair completely lines the whole junction in one process.

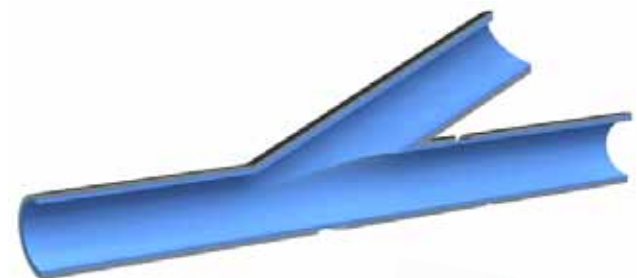

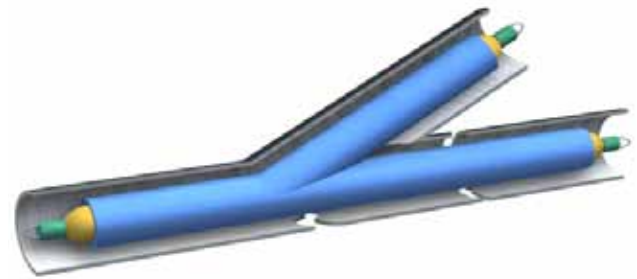

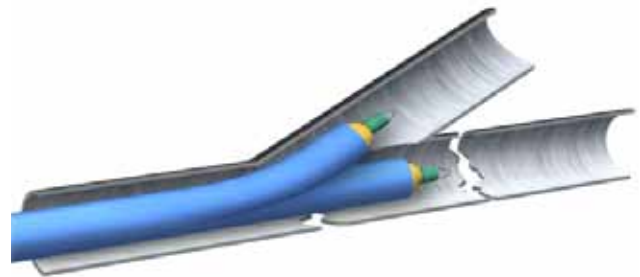

The process

1. The pipes are checked using the latest pipe camera investigation technologies.
2. Blocked and root intruded pipes are cleaned with a high pressure jetter.
3. A Nuflow liner is pulled into place. We can make the branch or main line to any length.
4. The Nuflow liner is inflated using a custom-made bladder and left to cure.
5. The bladder is removed leaving behind a structural repair with a limited manufacturer's warranty of 40 years.

The benefits

- The Nuflow process completely lines the whole of the junction in one process.
- We can reline any type of pipe, diameter or length combination. Either 45 or 90 degrees.
- The Nuflow process of cured-in-place, is the most versatile repair system in the world.
